OXYGEN HUNTERS

Roadmap

Oxygen Hunters is a Web3 GameFi Telegram Mini App with three modules: **Oxygen Hunters** (the space-exploration game), **OxyFi** (staking, 2–15% APY across 5 tiers) and **Oxygen Account** (P2P marketplace). The ecosystem is powered by **OXY**, an ERC-20 token on Avalanche C-Chain with a maximum supply of 100,000,000 (hard cap enforced in the contract) and a planned initial circulating supply of 15,000,000 OXY (15%) at TGE. The reference issuance price is 0.01 USDT, giving a fully diluted valuation of 1,000,000 USDT and an initial market cap of 150,000 USDT at TGE. Website: https://oxygenhunters.xyz

The roadmap is organised by phase. Target dates will be announced as each phase is scheduled. The TGE date is to be announced.

COMPLETED

Achieved

- Built a complete Telegram Mini App with three modules: Oxygen Hunters, OxyFi and Oxygen Account
- Ran Season 1 with 10K+ players; reached 70K+ organic registrations with no paid marketing
- Featured among Coinstore ecosystem partners in Coinstore's 10M-users campaign; listed in the TON App games directory
- Designed OXY as an ERC-20 token on Avalanche C-Chain with a 100,000,000 hard cap
- Secured a Coinstore listing

PHASE 1

Mainnet deployment and audit

- Deploy a fresh OXY contract on Avalanche C-Chain mainnet with a 100,000,000 hard cap
- Complete an independent smart-contract security audit

PHASE 2

Tokenomics setup

- Set up on-chain vesting contracts for all allocations

PHASE 3

Brand and community
